## Buying Mode Analysis

- List your last 15 sales that resulted in **new** customers
  - Sales to repeat customers don't count
- Put a check mark next to each sale that:
  - ✓ Had a shorter sales cycle
  - ✓ Was fairly easy to make
  - ✓ Presented limited price objection
  - ✓ Lead to a referencable customer
- Odds are those with three or more check marks next to their name were in the **Window of Dissatisfaction** when you got to them
